Bootcamp Projects

Skyline Studios

React.js | Node.js | Express.js | Passport.js | HTML/CSS | Javascript | Bulma.io

- A full stack website constructed using React. This was our final project from the coding bootcamp. A student on the team owned a local music studio and wanted a site where people could reserve studio time for recording or for lessons.
- Created the database using mongoDB that stored the studio's schedule as well as the user's log in.

Responsive Recipes

HTML/CSS | Javascript | Bootstrap | EdamamAPI | Node.js

- The Responsive Recipes website gives people who enjoy cooking a place to search for recipes based on their dietary restrictions or food allergies.
- With a team of 4 people, my role was project manager, HTML frame-work, and CSS.

DGTeamMate

HTML/CSS | Javascript | Bootstrap | Node.js

- A fun app where you answer questions based on your personal feeling and/or opinion towards certain aspects of disc golf. The end result shows you which pro would match your answers most similarly.
- Created the app using Bootstrap as a framework. The algorithm outcome was developed using Javascript.
